

KAUR

by Jill Gunnink

Like Alternative music? Maybe you prefer Jazz. How about Johnny Cash? Well, if any of those various music styles appeal to you, then KAUR is the radio station for you. KAUR broadcasts 21 hours a day, 7 AM to 3 AM, from Tuve Hall.

FCC regulations say that all music played on the college radio station can never have been Top 40, nor can it be music that any other station in Sioux Falls plays. "It's not mainstream," says Program Manager Kaleb Asplund, "but it's not weird like some people think." The KAUR all-student staff kept busy this year by alphabetizing its music li-

brary of over 8000 titles. DJ's also conducted on-air interviews with bands that came to town. KAUR's biggest event this year was Spooncat, a jazz band it brought to campus.

There were some changes around the office at KAUR. The Director of Promotions position was added. Holly Andren filled this position, trying to make KAUR more visible on campus and in the Sioux Falls Community. A Sports Update was added, where listeners could hear the latest information about Augustana athletics.

Rylee Retzer, the Music Director, traveled to New York City to represent KAUR at the College Music Journal Radio Conference.

General Manager Wendy Underwood believes music is "an essential part of all people." She is glad that KAUR can help provide this. She feels it is KAUR's commitment "to provide a different window of opportunity on campus. KAUR teaches people how to work individually and as a team."
